

HYPRMELLOSE 0.3% W/V EYE DROPS

PUR©PTICS® (Hypromellose 0.3% w/v Eye Drops)

Please keep and read this leaflet carefully because it contains important information for you. Ask your pharmacist if you need any more information or advice.

INTENDED USE

(PUR©PTICS) Hypromellose Eye Drops is a lubricating artificial tear drops used to relieve dry eye conditions. It provides a smooth feeling for sore eyes with soothing relief from grittiness, itchiness, burning and foreign body sensation.

WHAT CAUSES DRY EYE CONDITION

Dry eye condition associated with the use of VDUs and TVs, infrequent blinking, certain medical treatments, atmospheric pollution and drying atmospheres eg, air-conditioning, central heating, wind and sun. It is also result of ocular surface disorders that can be caused by a number of different reasons where the normal tears are either of poor quality or produced in too little quantity to keep the eye sufficiently moist.

INDICATION

When your eyes becomes red and sore, begin to itch, feel gritty or you feel burning then you have probably developed a dry eye sensation which needs treatment with (PUR©PTICS) Hypromellose Eye Drops. The lubricating ingredient in (PUR©PTICS) Hypromellose Eye Drops alleviates the symptoms of dry eye sensation with its soothing drop which brings fast relief. If your eye condition persists please consult your doctor or optician.

DOSAGE

The usual dosage is one or two drops to be applied 3 to 4 times a day as needed, or as directed by your doctor. No dosage adjustment is required in children

WARNINGS AND PRECAUTIONS

Talk to your doctor or pharmacist before using Hypromellose 0.3% w/v Eye Drops

Discard the bottle 28 days after opening, even if the solution is remaining.

PACKAGING:

5ml, 10ml, 15ml & 20ml of solution. Not all pack sizes may be marketed.

INSTRUCTION FOR USE

- First wash your hands
- Tighten the cap on the nozzle to pierce the tip of the eye drop bottle
- Rotate the cap anticlockwise to break the seal and remove the cap
- If you are a contact lens wearer remove your lenses and do not replace until 30 minutes after using eye drops
- Tilt your head back and look at the ceiling
- Pull the lower eyelid gently downwards
- Hold the bottle upside down above the eye and gently squeeze the bottle to release a drop into your eye
- Avoid touching any part of the eye (or any other surface) with the tip of the bottle
- Keep the affected eye closed and press your fingertip against the inside corner of the closed eye, and hold for 1 minute
- Repeat for the other eye if necessary
- Replace and tighten the cap immediately after use
- These drops are supplied as a sealed bottle with a spiked cap. When using the bottle for the first time, screw the cap down tightly in order to pierce the tip of the bottle

Eye solutions, if handled wrongly, can become contaminated by common bacteria and cause eye infections.
